

# SynapseDoc Research Paper: Advanced Retrieval Systems

Page 1: SynapseDoc introduces a connected-evidence visual system and pgvector search.  
The orchestrator pipeline parses PDFs into semantic chunks and embeds them via Gemini.

## Section 2: Multi-Document Vector Search Performance

Page 2: Vector embeddings use 3072 dimensions with gemini-embedding-001.

Streaming responses stream tokens via server-sent events with page citations.
